
Internal Family Systems Level 1 training 2027

L1 1678 Hybrid – in-person and online

Training overview

IFS Level 1 trainings are a comprehensive programme in which participants develop an understanding of the conceptual basis of IFS and learn how to apply techniques to various clinical populations.

In addition to thoroughly teaching IFS theory and technique, the Internal Family Systems Level 1 training programme invites participants to explore their own inner worlds in a safe, nurturing context.

Format

The training includes lectures, discussions, demonstrations, video reviews, experiential exercises, and small group supervisions and practices. Previously trained participants, known as Programme Assistants (PAs), will be present to support the learning space and small group work.

Important note: Participants should be aware that the daily experiential work during the training involves small groups for experiential practice sessions to hone your skills with the model. This is where you will learn how to apply IFS techniques to your clients. You will also be client and observer in these practice sessions. As mentioned above the participants are invited to explore their own inner worlds within the training's safe and nurturing context.

Language: The training and the manual will be in English, but there will be opportunities for the Practice Group work to take place in native languages, when the group is led by a Programme Assistant and consists of participants speaking the same language.

Who should apply

The IFS Institute has revised its admissions policy from the 1st of January 2025.

The IFS Level 1 training is now particularly relevant for professionals within the psychological and psychotherapeutic field. It is primarily aimed at psychologists and psychotherapists, as well as psychiatrists and social workers with further psychotherapeutic training and clinical experience.

From the 1st of January 2025, specific admission criterias apply for each individual country. The admission criterias for the five Nordic countries can be found at

<https://www.ifs-nordics.com/trainings/#admission>. If you are an applicant from a country outside the Nordic countries, you must contact the international IFS partner for your country to find out about the admission requirements. If you are applying from a country where there is no international IFS partner, you must contact the IFS Institute: info@ifs-institute.com.

Code of Conduct, Safety and Confidentiality Policy

Please read the IFS Institute code of conduct for IFS trainings (<https://ifs-institute.com/resources/code-of-conduct>). You will be asked to agree to this at the registration stage of training. Only apply to this training if you can agree to the code of conduct. Contact info@selv-til-del.dk if you wish to discuss this further.

Minimum requirement for the Certificate of Completion (COC)

The total number of training hours for this course is 89½ and the minimum requirement for the COC is 75 hours. Due to the group dynamics that develop within a training course, it is not possible to make up for missed hours by attending part of another training course. Below 75 hours, you will need to take the full training again (at the full cost) to receive the COC.
