
Internal Family Systems Level 3 training 2027

L3 1707 In-person

Training overview

Level 3 training is a specialised course and the final step you can take as an IFS therapist or practitioner. To enter a Level 3 training you'll need to first graduate from a Level 2.

On our Level 3 training, you'll work intensively with fellow advanced therapists and practitioners to explore and further develop your knowledge of IFS and refine the skills you have already learned and use in your work. The goal is not simply to help you become a better therapist, but also to give you the possibility to:

- Learn about and unburden blind spots and personal triggers
- Hold self-energy in your daily life – even when provoked
- Clarify your vision for both your career and your life path
- Practise giving and receiving self-led feedback
- Discover some key trailheads
- Explore your spirituality
- Become part of a self-led community of like-minded professionals.

The objectives of the training are first and foremost to further your own work with your internal system. It also aims to provide you with new material as well as expand and deepen topics you already know, with an emphasis on the spiritual aspects of the model.

Format

Our Level 3 course include demonstrations, experiential group exercises, large and small group discussions, extended meditation and intensive personal work.

As in all Level 3 trainings no staff will be involved and you'd rely on self assessment and peer support.

Important note: Participants should be aware that the daily experiential work during the training involves small groups for experiential practice sessions to hone your skills with the model. You are invited to explore your own inner world within the training's safe and nurturing context.

Language: The training will be in English, but there will be opportunities for the work in small groups to take place in native languages, when all the participants are speaking the same language.

Who should apply

All IFS therapists and practitioners who has done a IFS Level 2 training can apply.
